

The painter Dimitar Todorov-Jarava has arranged an exhibition on his own in the hall at 9, "Rouski" blvd. The painter's compositions and portraits, unpretentious by subject-matters and interpretation, are taking us to the world of his art and are defining his creative individuality. Honest and modest as an artist and citizen, a participant in the people's revolutionary fight, Jarava is known to the public as a sincere and talented painter. The works, shown in this exhibition, show the love of the author towards the nature, the human and life in general. The expressive style with which he treats his works implies a flair for a clear and exact painting, a sound form.
